Work Experience

September 2011 – January 2013 : PHP Programmer/Web Designer at Nexus Travel Technology Co., Ltd.

Developed a large and complex web application called VBS within a collaborative environment. VBS is an online travel booking engine used in Australia by several multimillion dollar travel agents. Its modules include hotels, air, tours, transfers, car rental and cruising. In this role I was involved in the full system life cycle including:

- Receiving user requirements in written documents and verbally in English.
- Analyzed the requirements to design and develop a solution using PHP (OOP), MySQL, AJAX, Java Script, jQuery and CSS.
- Performed testing of my own code as well as of my team members.

In addition to VBS I was responsible for all the companies' client Wordpress websites. This required me to:

- Use Photoshop to design client logos, buttons and other site images.
- Research and modify Wordpress templates, themes and plugins to clients design requirements.

Example sites: www.travelescapade.com.au , www.nexustraveltechnology.com.au , www.tats.com.au

November 2010 – September 2011 : Web Programmer / Web Designer / Web content at Thai Travel Info Service Ltd.

Developed a large and complex web Enterprise Resource Planning application (ERP). ERP is business management software that allows an organization to use a system of integrated applications to manage the business. ERP software integrates all facets of an operation, including planning, production, sales, human resource and accounting/finance. In this role I was involved in the full system life cycle including:

- Analyzed the requirements to design and develop a solution using PHP, MySQL, AJAX, Java Script, jQuery and CSS.

In addition to ERP I was responsible for all the company websites. This required me to:

- Use Photoshop to design logos, buttons, banners, thumbnails and other site images.
- Use Search Engine Optimization (SEO) to promote website.
- Update content (tour, package tour, air ticket, news etc.) in all website of company

Example: www.thaitravelcenter.com , www.thailimousinecenter.com , www.thaiticketcenter.com , www.thaiairwaysticket.com, www.kreatourcenter.com, www.japantourcenter.com

July 2008 – October 2010 : Web Content & IT Officer at Thai Travel Info Service Ltd.

Responsible for updating the content (tour, package tour, air ticket, news etc.), design and programming company website.

Example: www.thaitravelcenter.com , www.thailimousinecenter.com , www.thaiticketcenter.com , www.thaiairwaysticket.com, www.kreatourcenter.com, www.japantourcenter.com

March 19 – April 30, 2007 : A trainee, Information Technology and Communication Center of Ministry of Education, Bangkok.

Notable Projects and Achievements

October 2012: Created and designed the website www.lovedesignwedding.com

June – September, 2012 : Developed and designed the website for R.T. Tour Service Co., Ltd. www.rttour.com/2012 and www.rttour.com/2012/china

Both of these websites had back office functions to enable the RT Tours to easily update and maintain the published tours itineraries and rates.

August 2011 : Programming Master's Degree Project (Material and Equipment Management System of Inter City Motorway Division)

October 2010 : Created the website www.sportticketing.com
